AUA Core Curriculum

Anatomy/Pathology/Physiology
Anatomy and Embryology
Urinary Tract Physiology and Pathophysiology
Urologic Pathology

Benign Prostate Diseases
BPH
Prostatitis

Bladder/Prostate/Upper Tract Cancer
Muscle Invasive Bladder Cancer
Non-Muscle Invasive Bladder Cancer
Prostate Cancer
Upper Tract Urothelial Tumors
Urethral Strictures
Urinary Diversion

Business/Communications/Research
Basic Research and Biostatistics
Basics of Evidence-Based Medicine and Clinical Trials
Clinical Ethics
Communication
Principles of Competency-Based Learning
The Business of Your Practice

Female Pelvic Medicine/NGB/Incontinence
Interstitial Cystitis (IC)/Painful bladder syndrome (PBS)
Male Urinary Incontinence and Voiding Disorders
Neurogenic Bladder: Voiding Dysfunctions Associated with Neurological Disease
Urinary Incontinence and Female Urology
Urodynamics

Infertility/Sexual Medicine
Erectile Dysfunction, Peyronie's Disease and Priapism
Evaluation and Treatment of the Infertile Male

Laparoscopy/Robotics
Basics of Urologic Laparoscopy and Robotics
Other Cancers
- Benign and Malignant Diseases of the Adrenal Gland
- Benign and Malignant Neoplasms of the Kidney
- Penile Cancer
- Testicular Cancer: Germ Cell Tumors
- Urethral Cancer

Pediatrics
- Pediatric Genital Anomalies
- Pediatric Obstructive Urology
- Pediatric Urologic Oncology
- Pediatric Urology
- Urinary Incontinence in Children
- Urinary Tract Infections in Children

Transplant/Reno-Vascular
- Renal Transplantation
- Renovascular Disease

Trauma
- Renal and Ureteral Trauma
- Trauma of the Bladder, Urethra and Genitalia

Urolithiasis
- Medical Management of Urolithiasis
- Surgical Stone Management

Uroradiology
- Computed Tomography (CT) of the Genitourinary Tract
- Conventional Radiology
- Magnetic Resonance Imaging (MRI) of the Genitourinary Tract
- Nuclear Scintigraphy of the Genitourinary Tract
- Ultrasound of the Genitourinary Tract

UTI/STD/Obstructive/Geriatrics
- Geriatric Urology
- Sexually Transmitted Infections and Genital Dermatology
- Upper Urinary Tract Obstruction and Ureteropelvic Junction Obstruction
- Urinary Tract Infections
